WANTS COMPENSATION.

Mrs. Kingsley Sues Saleslady for Husband's Affections.

Mrs. Edward A. Kingsley, the daughter of Col. and Mrs. William Donaghue of Hartford, has sued Miss Helen Conners, a saleswoman in the ladies' suit department in a Boston department store, for \$25,000, alleging that Miss Conners has alienated the affections of her husband, Edward A. affections of her husband, Edward A. Kingsley. He is a graduate of the New England Conservatory of Music and is at the present time instructor of music in the public schools of Belmont, Lexington and Maynard, Mass. He is the adopted son of Ernest Webster Kingsley of Westhampton, Mass.

For years it has been urged that county jail prisoners ought to be put to some healthful, regular and useful work for the good of the prisoner and the public. The one thing that the average rounder, drunk and incorrigible individual needs—and dreads—is

average rounder, drunk and incorrigible individual needs—and dreads—is real work. That would be punishment to most prisoners. It is a practical and humane way to discipline them and inculcate habits of decency. A hint of what is possible is furnished by the Windham county jail. A correspondent tells about it as follows:

"In 1881, Sheriff Preston B. Sibley, then jailer of Brooklyn jail, conceived the idea of making the prisoners a source of profit instead of an expense to the county, and in accordance with that idea, he persuaded the county to buy a lot of seven and three-quarters acres near the jail. The lot was partly a peat bog, but mostly dry land which was covered with ledges and boulders; both parts of the lot being all right on which to utilize the work of the prisoners. The peat was thoroughly under-drained, and the drains covered with fat stones. The stones were then covered with soil deep enough so that vegetation could grow over them and then the rest of the lot was so thoroughly cleared of stones that none was visible. This made the unsightly lot a fine one, and with the addition of manure, it was one of the most productive in the country.

"Upon two acres of the lot 555

nure, it was one of the lot 635 tive in the country.
"Upon two acres of the lot 635 bushels of potatoes were raised, and upon one acre 160 bushels of corn on the case was produced in one year. It the ear was produced in one year. It is all in grass at the present time, and is all in grass at the present time, and twenty tons of hay and rowen are raised per year. There is one tree standing upon the lot which is called the Giant Oak of Windham County, and the sale of it has been refused, although \$100 had been offered for it. Fine walls have been built around the lot, which work, together with the clearing and the tillage of the land, has been done by the prisoners, at odd times, so that the cost of all has been nothing to the county.

times, so that the cost of the lot was nothing to the county.

"The original cost of the lot was \$350, and is now well worth \$3,000. The jaliers following Mr. Sibley have by his experience and following have been been appropriated by his experience." profited by his experience and fol-lowing his methods have purchased more land and are making it still more profitable. There is now no jail in the state that is run at so large a profit as the Windham county jail." —Bristol Press.

The Four Corners of the Earth. "And what are we to understand by the Biblical expression, 'the four cor-ners of the earth'?" asked the instruc-

tor in theology.
"Rockefeller's corner in oil, Hayemeyer's corner in sugar. Carnegie's corner in steel and Patten's corner in wheat," answered the new student.— Saturday Evening Post.

WHEN THE SKIN AILS

Real "First Aid" in Eczema and Skin

Troubles of Every Nature.

Most medicinal preparations for physicians use tell on the label what purticular disease they are best adapted to cure. All the troubles readily curable by posiam, the new skin remedy, make a lengthy list, including every surface skin affection, for poslam is "first aid" whenever the skin asis. While primarily a remedy for eczema, acne. tetter, barber's and all other forms of itch, etc., it promptly cures all the lesser skin affections, pimples, blackheads, blotches, fever blisters, red noses, inflamed skin, rash, herpes, clears the complexion and keeps the skin in a healthy condition.

Many of these minor troubles are eradicated by poslam over night, others in a day or two, and many cases of eczema yield in two weeks. Itching stops on first application, and the skin begins to heal at once.

Every druggist keeps both the 50-cent size (for minor troubles) and the \$2 jar, and either of these may be obtained at Lee & Osgood's and Smith's Drug Store in Norwich, the Larue Drug Store in Putnam, the Woodward Drug Store in Danielson, the Chesebro Drug Store in Danielson, the Chesebro Drug Store in Danielson, the Chesebro Drug Store in Butlimantic, as well as other reliable drug stores.

But no one is even asked to purchase poslam without first obtaining Troubles of Every Nature.

But no one is even asked to purchase poslam without first obtaining a sample package, which will be sent by mail, free of charge, upon request, by the Emergency Laboratories, No. 32 West Twenty-fifth street, New York City.

Give the Boys a Chance.

The strong expression of public sentiment in support of Mayor Gaynor's action looking to the suppression of the sale of the more dangerous kind of "noise makers" in New York city is an indication of the drift of popular opinion. The "safe and sane" Fourth is gaining impetus at an extraordinary is gaining impetus at an extraordinary rate. Apparently the time is near at hand when the American people generally will wonder why the old-time racket, with risk to life and limb, was even permitted. Apropos of this subject is some information supplied by the Springfield Republican with reference to plans for observing the next Independence day. Last year Springfield adopted the quiet method and liked it so well that a similar programme will be carried out this year, with improvements suggested by experience. One marked feature of the "quiet Fourth" is the prominent part taken in the proceedings by the boys and girls, who in this way are not only and girls, who in this way are not only won from the noisy and dangerous ob-servance, but are interested in the celebration and given parts that are adapted to their capacity, and are fur-nished valuable lessons in history and patriotism.—Troy Times.
